

MATERIAL SAFETY DATA SHEET

Section 1: Product/Company Information

Product Name Garox Ultra

Product uses Natural Insecticide

Supplier/Company Parallax AG LLC
Maryland, USA
+14436534730
info@parallaxag.us
www.parallaxag.us

Section 2: Chemical Composition

<u>Chemical Name</u>	<u>CAS No.</u>	<u>Content (%w/v)</u>
Garlic Oil	8000-78-0	6.00
Castor oil	8001-79-4	25.00
Other ingredients	--	69.00

Section 3: Hazardous Identification

Toxicological risk classification according to WHO: IV (Product that normally causes no harm).

Adverse health effects Avoid contact with eyes.

Skin dryness and irritation may occur.

Causes nausea, vomit, abdominal pain, diarrhea, and drowsiness in case of ingestion.

Environmental Hazards May be harmful to aquatic organisms.

Symptoms of overexposure Inhalation of product may aggravate existing chronic respiratory problems such as asthma, emphysema, or bronchitis.

Skin contact may aggravate existing skin diseases.

Section 4: First Aid Measures

If ingested	Induce vomiting by giving a cup of water or milk. Immediately seek medical advice.
Eye contact	Immediately flush the contaminated eye with plenty of water for 15 minutes or until the product is removed. Seek medical attention, if necessary.
Skin Contact	Take off contaminated clothing and shoes. Rinse skin immediately with plenty of cold water and soap. Wash contaminated clothing separately. Seek medical attention, if necessary.
Inhalation	Move affected person to fresh air. If breathing is difficult give artificial respiration. Seek medical attention, if necessary.
Note to Physician	No specific antidote. Treat symptomatically.

Section 5: Fire Fighting Measures

Extinguishing Media	Water, foam, dry chemical powder or dry carbon dioxide.
Special Fire Fighting Procedures	<p>Firefighters should wear NIOSH/MSHA approved self-contained breathing apparatus and full protective clothing. Use appropriate extinguishing media. Evacuate affected area to prevent human exposure to fire, smoke, fumes or products of combustion. Prevent use of contaminated buildings, area, and equipment until decontaminated. Cool nearby drums with water spray.</p> <p>Persons who may have been exposed to contaminated smoke should be immediately examined by a physician and checked for symptoms of poisoning.</p>
Decomposition Products	CO ₂ , NO, and HCl organic compounds such as aromatic compounds.

Section 6: Accidental Release Measures

Personal precautions

Wear appropriate safety clothing and eye/face protection.

Environmental precautions

Do not wash into sewers or into any water body.

Methods for cleaning up the spills

Contain the spill at its source. Clean up spills immediately, observing precautions outlined in Sections 7 and 8. Ventilate the area and wash spill site after material pick up is complete. On soils, skim off the upper contaminated layer and collect for disposal. Once all material is cleaned up and placed in a disposal container, seal container and arrange for disposition. Spillages or uncontrolled discharges into watercourses must be alerted to the appropriate regulatory body.

Section 7: Handling and Storage

Handling

Keep out of reach of children and animals. Prevent eating, drinking, tobacco use, and cosmetic application in areas where there is a potential for exposure to the material. Avoid inhalation spray mist. Wear full protective clothing and equipment.

After work, rinse gloves and remove protective equipment, and wash hands thoroughly with soap and water after handling, and before eating, tobacco use, drinking, or using the toilet. Wash contaminated clothing separately. Keep containers closed when not in use.

Storage

Store unused product in original container only, out of reach of children and animals. Keep out of direct sunlight. Store in an area that is cool, away from sources of ignition and oxidising agents and strong acids, away from food, feedstuffs, fertilizers, seed, and water sources. Protect the product from direct contact with water.

Section 8: Exposure Control/Personal Protection

Engineering Controls	Use only in well-ventilated area. Ensure work areas have ventilation, containment, and procedures sufficient to maintain airborne levels below the TLV. Warehouses, production area, parking lots and waste holding facilities must have adequate containment to prevent environmental contamination. Provide separate shower and eating facilities.
Ingestion	Do not eat, drink or apply cosmetics, where there is a potential for exposure to the product.
Eyes protection	Where eye contact is likely, use chemical splash goggles. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.
Skin protection	Chemical resistant gloves, coveralls, socks, apron and chemical resistant foot coverings should always be used while handling the product.
Respiratory protection	Always use NIOSH/MSHA approved respiratory protection equipment with a universal filter type including particle filter.
General Protection	Avoid contact with eyes and skin. While handling the product, wear cotton overalls buttoned to the neck and wrist and washable hat, elbow-length PVC gloves and face shield. After use and before eating drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves, face shield and contaminated clothing.

Section 9: Exposure Control/Personal Protection

Physical appearance	Light yellow to light brown liquid
----------------------------	------------------------------------

Odour	Slight specific
pH	4-9
Explosivity	Non-explosive.
Relative density	1.01 ± 0.02 g/ml

Section 10: Stability and Reactivity

Explosivity	Non-explosive
Flammability	Non-flammable.
Shelf life	Stable for two years under normal conditions of storage and use.
Conditions to avoid	Extreme temperature conditions.
Materials to be avoided	Oxidizing agents, strong acids and bases.
Hazardous decomposition products	Combustion may result in the production of toxic gases such as CO ₂ , NO, and HCl organic compounds such as aromatic compounds.

Section 11: Toxicological information

Oral Acute LD₅₀ (Rats)	> 5 000 mg/kg in rats
Acute dermal LD₅₀ (Mice)	> 5 000 mg/kg bw
Skin irritation	Non-irritant
Eye irritation	Non-irritant
Skin sensitization	Non-sensitizing.

Section 12: Ecological information

Toxic to aquatic organisms, may cause long-term adverse effects environment. Avoid any pollution of ground, surface or underground water.

Section 13: Disposal Consideration

Disposal

Do not re-use empty containers. Empty container retains product residue. Triple rinse or equivalent, empty container and dispose off dilution mixture as a hazardous waste if it cannot be disposed off by use according to label instructions. Dispose off empty containers in accordance with local regulations. Consult Provincial Environment Ministry for advice on waste disposal. Industrial/commercial waste may be handled at licensed facilities only. Waste shipments must be securely packaged and properly labeled.

Only licensed carriers may be used, and proper documents must accompany the shipment.

Section 14: Transport Information

DOT classification: Not a DOT controlled material (United States).

DOT Hazardous class: Non-regulated

IMO/IMDG class: Non-regulated (International Maritime Organization).

UN number: Not assigned (not a dangerous good)

Identification: Garlic oil 6% + Castor Oil 25%

Special Provisions for Transport: Not applicable (Not required).

Section 15: Regulatory Information

Not a regulated product by various regulatory authorities globally.

Section 16: Other Information

The information provided in this safety data sheet is believed to be accurate and reliable. The information is offered only as a guide to the handling of this specific material, but uses of this product may vary and situation unforeseen by Parallax AG LLC, USA may exist. No warranty of any kind is given/ implied and Parallax AG LLC, USA will not be reliable for any damages, losses, injuries or

consequential damages, which may result from the use of or reliance on any information contained herein. Read the entire MSDS for complete hazard evaluation of this product.

The information provided herein relates to the specific product designated and may not be valid where such product is used in combination in any other material or in any process. Parallax AG LLC expressly disclaims any and all liability as to any results obtained or arising from any use of the product or reliance on such information.
